Explanation:

If passed, this bill would take authority away from the Natural Resources Commission to issue an order regarding deer and elk feeding after consultation with MDARD and would allow elk and deer feeding during open hunting season on those animals. The purpose of giving the NRC control over this issue is to try to control the spread of chronic wasting disease by giving the NRC authority to restrict or prohibit feeding and baiting when necessary. Taking away that authority and allowing this unsportsmanlike practice could have devastating consequences for Michigan's deer and elk populations.
